

Matthias Presotto to speak at IFRA convention 'Managing Ink and Paper' on May 26 – 27, 2009 in Hamburg, Germany

Matthias Presotto, head of the Gravure and Offset Laboratory at Prinovis Ahrensburg, will be speaking at the IFRA convention on 'Managing Ink and Paper' on 26 May 09. His presentation will focus on quality management in the area of papers and inks.

The Gravure and Offset Laboratory is an established provider of services related to the laboratory analysis of offset and gravure paper and offset inks. Its services include testing materials in the lab, as well as providing consultancy on the efficient and economic use of paper and ink in printing. The IFRA convention will be attended mostly by newspaper printers who, thanks to their magazines and supplements, are among Prinovis's clients.

More information about the IFRA convention and the programme is available at www.ifra.com.
